

Name \_\_\_\_\_

# Reckon

Directions:

Add, subtract, multiply or divide the number “keys” to reach the target numbers. Each number sentence can only use a key once. For example, you may not add  $2 + 2$  to equal 4 because you can only use the number key 2 one time.

| Whiz Kid's Keys |  |  |  |
|-----------------|--|--|--|
| 1               |  |  |  |
| 14              |  |  |  |
| 6               |  |  |  |
| 10              |  |  |  |

| TARGETS |    |    |
|---------|----|----|
| 13      | 21 | 5  |
| 24      | 4  | 20 |
| 12      | 18 | 23 |
